MISSION & VISION

MISSION

Innovative Leadership Academy builds a future-focused educational ecosystem where every child — particularly those who learn differently — is empowered to lead, create, and reshape the world through hands-on Innovation Labs™, culturally rooted learning, entrepreneurship, STEM, leadership, and meaningful real-world experiences.

VISION

Students in every Houston neighborhood graduate ready to design the future — confident in their identity, fluent in technology and creativity, equipped to solve problems, and prepared to lead with purpose.

THE YEAR-ROUND INNOVATION ECOSYSTEM

Every ILA experience runs on one instructional framework — the five-phase Innovation Labs™ Learning Cycle — so a scholar who joins in June keeps learning in October.

WHEN	PROGRAM	FOCUS
School year, after 3:00 PM	After-School Innovation Labs	Homework Hub, STEM & robotics, coding, entrepreneurship, art, leadership
Summer, full day	iLabs Summer School	Themed labs, youth entrepreneurship, field experiences, family showcase
School holidays & workdays	Innovation Camps	Full-day enrichment on days families most often lose coverage
Saturdays & monthly	Saturday Labs · iLabs Passport	Family membership labs, literacy, financial literacy, family workshops
Year-round, educators	Educator Innovation Network™	Training and curriculum licensing so partner sites can run the model

ILA is pursuing a **Texas school-age child care license** through HHSC Child Care Regulation — authorizing licensed full-day care across summer, school holidays, and teacher workdays, and opening eligibility for subsidized enrollment.

COMMUNITIES WE SERVE

Schematic. Shaded area denotes service footprint.

- Sunnyside · 77021
- Third Ward · 77004
- South Park · 77047

All three neighborhoods sit inside Harris County Precinct One.

OPPORTUNITIES FOR PARTNERSHIP

01 Facility Partnership

Help ILA secure a long-term Innovation Hub for licensed after-school and summer programming.

02 After-School Expansion

Expand Innovation Labs access for elementary and middle school students across Precinct One.

03 Summer Innovation Scholarships

Increase access to affordable, high-quality summer learning for underserved youth.

04 Workforce Development

Support youth entrepreneurship, STEM, leadership development, and career readiness.

05 Community Innovation Ecosystem

Build a sustainable year-round educational ecosystem for children and families county-wide.

Our request: a conversation with the Commissioner and his team about which of these fits Precinct One's priorities — and guidance on county partnerships, facilities, youth development, grants, and workforce collaborations. ILA reports enrollment, attendance, and growth back on whatever cadence the office prefers.
